Mechanical Engineering

About the Mechanical Engineering Online M.M.E. Program

The Department of Mechanical Engineering (ME) offers a fully online Master of Mechanical Engineering (MME) degree. This is a non-thesis degree program aiming to provide depth of knowledge in selected areas of mechanical engineering, as well as broader knowledge in other engineering, science, business or law topics. The degree is suitable to engineering graduates and working professionals seeking to expand their technical skills for employment and advancement in mechanical engineering related fields.
